4-H Cloud Computing Club

Cloud computing is all the rage these days. This club will explain the details of what cloud computing is and give you the confidence to design and host an end to end website in the cloud.

Basic HTML, JavaScript, and Python will be taught in this club. You will also experience the tools used to host websites in the cloud, such as Amazon S3 Buckets, and Lambda. All that is needed is any laptop, and a great attitude!

For more information, contact:

Raki Jeyaraman
