### Inventory of Animals

Use this chart to keep track of all of your project animals. At the beginning of the year, write down all the animals you own. Throughout the year, you may acquire new animals. These animals may be purchased, traded, or even born from animals you already own. Be sure to add the animals acquired during the year to this list. If you purchased the animal, the cost of the animal should be included under *(E3) Other Expenses* on page 13. Also indicate whether any of the animals were sold, traded, or died during the 4-H year. If you sold an animal, record the sale under *Income* on page 14. At the end of the year you will have a complete list of the animals you owned during this project year.

Type of animal	Sex	Date Acquired	Date of birth or approx. age when acquired	Source of animal (Breeder, Etc.)	Why no longer a owned and date left
<i>Example: Iguana</i>	<i>Male</i>	<i>1/30/2000</i>	<i>6 months</i>	<i>Pet store</i>	<i>Traded to a friend 3/5/2001</i>
<i>Example: Red-ear Slider Turtle</i>		<i>3/5/2001</i>	<i>3 years old</i>	<i>Traded with a friend</i>
