

## Project Finances

**\$** It is likely that you spent money on your 4-H project this year. This section will help you add up what it cost to complete your project.

### (E) Expenses

This section is where you can keep track of what you purchased, veterinarian and medical supplies, and the other materials, supplies, and equipment you purchased or used for your project and what it cost to use. You may add more copies of these pages if necessary.

Expenses are divided into four categories (E1, E2, E3, and E4):

- (E1) Equipment expenses (including hardware for repair of pens)
- (E2) Feed expenses (Remember the cost of feed = number of pounds of feed x price per pound. Also, when homegrown feeds are used, list feed cost at market value.)
- (E3) Health/Medical expenses (including veterinary and medicine)
- (E4) Other expenses (such as purchasing animals, breeding charges, shows, transportation)

### (E1) Equipment expenses

**(I) Income**

It is possible that your project had no income. If so, enter "None" under description and "0" under "Total Income." Remember, if products were consumed at home, list what you would have paid for them in the local store, or what you would have received in cash if you sold the product.
